

Bring old cell phones  
and print cartridges  
to school

Recycle for a good cause

**Congratulations!** Your child's school has joined the Think Recycle Fundraising Program!

Think Recycle enables schools to earn money (not points) by recycling used print cartridges and old cell phones.

**It's easy as 1, 2, 3!**

1. Collect used print cartridges and old cell phones throughout the year.
2. Bring these items to school where they will be shipped for recycling.
3. Think Recycle will rebate the school for the value of the items and plant trees on behalf of the school\*.

To learn more about this amazing program visit:  
[www.thinkrecycle.com](http://www.thinkrecycle.com) or call 1.888.265.2895.

Do you know of a company that wants to donate its old cell phones and print cartridges to your school?

**This is how you do it:**

- Contact the business and ask if they are willing to donate their used cartridges and old cell phones
- Have them sign up at [www.thinkrecycle.com](http://www.thinkrecycle.com)
- Ask them to pay the funds earned to your school

\*Trees are planted through our partnership with American Forests and The Tree Canada Foundation

Tel: 1.888.265.2895

Printed on 100% recycled paper.

# The Facts

- Think Recycle is a cost and hassle-free environmental fundraising program created by Greentec
- More than 20,000 schools, charities and businesses in the United States and Canada are currently participating
- Members earn funds for every qualifying electronic collected and redeem funds for cash payments
- Think Recycle has awarded more than \$5 million dollars in funding to members
- Think Recycle members are responsible for the diversion of more than 3,000,000 electronics from entering local and international landfills
- 300 million cartridges are used annually in North America, with a high percentage ending up in local and international landfills. Cartridges collected through Think Recycle are qualified and sold to refurbishers who refill them and return them to the market, reducing the number of cartridges that end up in landfill sites
- This year alone, over 500 million cell phones will no longer be used and will either end up in landfill or on someone's shelf collecting dust. Cell phones collected through Think Recycle are qualified and sold to companies who refurbish and reuse them. This reduces the amount of waste that ends up in landfills.
- Through our partnerships with American Forests and Tree Canada, Think Recycle will donate funds to have one tree planted for every 24 qualifying electronics returned
- To date, members have contributed to the planting of over 50,000 trees and removing over 8,700 tones of carbon from the atmosphere
- Greentec is government approved recycler, ISO 14001 certified, OES approved and follows a strict zero-landfill policy which assures our members that no products sent to our facility will end-up in a local or international landfill
- Think Recycle has been providing environmental fundraising solutions since 1995

**Tip: To increase participation, educate your community about the benefits of recycling unwanted consumer electronics.**
